My name is Alireza Sabet Saiedi, I am a political observer and a researcher. I have been working on Iran issue for over the course of last decade. I traveled 200, 000 kilometers around the world to gather information about Iran. I met with politicians, political observers and academics! I have written a book about the state of Iran. I intend to take you inside the controversy surrounding Iran from religion, human rights, and women's rights to nuclear program, the military, the revolutionary guard, and foreign affairs. In these one hundred and ninety pages, I'll try to explain what is really behind all these controversial discussions, why the West has been trying to limit Iran's capacity in the international arena, and what is behind all these false depictions of the Iranian state! How familiar are you with the supreme leader of Iran? Why whatever you hear and read about Iran is false? Is it because Iran has become so powerful and needs to be contained? Why does the United States have such aggressive policies toward Iran? Why is the United States so friendly to Israel? I intend to answer all these questions for you! And plenty more! I use the comments from political scientists from Harvard, Princeton and Yale. I use comments from senators, congressmen and congresswomen in the U. S. senate and the U. S. House of Representatives; I use comments from national security advisors and many think-tank institutions all in the United States. Do you know that Iran is the regional superpower? Did you know that Iran is the 17th richest economy in the world and intends to become the 12th!! Did you know that Iran has...
